

Take the Guesswork out of Efficiency with Assessment Support

Aurora Water and Xcel Energy are collaborating to lower utility costs for local businesses.

Reducing your building's water and energy use can save you money. What's more, saving water offers a double benefit of saving energy, since it takes energy to deliver hot water. **Aurora Water and Xcel Energy** are making the transition to a more efficient building easy by offering a joint assessment. Maximize your benefits by participating in both programs so you can gain the greatest utility bill savings, decreased need for maintenance, and an increase in tenant and customer satisfaction.

Xcel Energy Business Energy Assessments

Xcel Energy offers two primary types of assessments to fit your specific needs: Small Business Energy Solutions and the Commercial Streamlined Assessment.

	Small Business Energy Solutions	Commercial Streamlined Assessment
Who	Owners of small businesses: <ul style="list-style-type: none"> » With 10 or fewer locations » Who make their own energy decisions 	Owners of small- and medium-sized businesses: <ul style="list-style-type: none"> » Who have maintenance or facility staff » Are interested in an ASHRAE Level 1 energy assessment

Time	<1 hour	1-2 hours
Benefits	<ul style="list-style-type: none"> » Saving money on energy bills » More reliable equipment » Less maintenance » Improved productivity » Improved workplace comfort 	

Aurora Water Indoor Assessments

Silent water leaks and inefficient appliances can waste hundreds of gallons of water each month, resulting in higher water bills. For Aurora Water customers, a water conservation specialist will come to your home or property and provide a free assessment that includes:

- ✓ A review of historical water use to target possible water-efficiency issues
- ✓ A low-flow pre-rinse spray nozzle (commercial kitchens only)
- ✓ Checking toilets and water fixtures for leaks
- ✓ Assessing appliances and fixtures for efficiency
- ✓ Providing recommendations for fixture and appliance updates
- ✓ Locating and explaining various shut-off valves to prepare for emergencies
- ✓ Discussing possible rebates to save you money

Take advantage of this special collaboration between Aurora Water and Xcel Energy!

How long will it take?

The combined assessment typically takes around 2 hours depending on the size of your building.

Ready to maximize your savings?

Connect with Aurora Water today and mention your interest in a dual assessment. Aurora Water will do the work for you to make scheduling both assessments easy!
